#### Notes.

No artist's signatures on drawings, probably all the work of R-H. Some evidently used dissecting microscope. Monochrome images also unattributed.

Several new taxa 'published' but only by images and analytical diagrams which, since 1<sup>st</sup> Jan 1908 is no longer accepted as validating publication (ICN Art. 38.7), hence treated as nom. nud. These include: *Kalanchoe praesidentis-malani*, *Kalanchoe souegesi*, *Sedum dandy anum*, *Sedum pygmaeum*. Some have been validated subsequently elsewhere by RH or other authors.

#### Library holdings.

Copy at BM 1-5, bound in a single volume. Part 2 omits t.22 to t.29.

Copy at Kew 1-5 complete.

RHS Lindley Library has parts 1 and 5 only.

Ray Stephenson (*Sedum* Soc. & Nat. Collection) has part 1 only.
